My name is Mary and I have a passion for designing & making things. I'm excited to use my multitude of talents and interests to design & make things for you. My experience is varied and extensive, ranging from building a global design team at a startup to mentoring a team at the most valuable company in the world. I've designed record sleeves, art books, textiles & surface patterns, screenprinted CD covers and tie-dyed sheets, blown hot glass, and have made more digital ads than you could shake a stick at. **I am enthusiastic, approachable, and strive to bring balance to any team I join.**

MAY.13 – PRESENT
